PRESIDENT'S LETTER

Dear Chicago Members,

First and foremost, welcome to a new Chapter Year and thank you for participating in the election of the 2019-2020 Executive Board! We have had overwhelming support for the 2018-2019 Board, and, as a result, we are continuing our elected roles into this new chapter year. This continuation was in large part necessary to continue our work of strengthening our foundation of 400+ Chicago Chapter members. But for us to make real progress, we are looking for those of us who can be safety leaders to be an active part of this growth. As a safety leader, participation can be as light as sending us suggestions and feedback or as invested as joining a Chapter committee. As chapters are member-led organizations, every bit of member support is desired! To act on this need, we are publishing a new membership needs assessment survey. If we can have 5-10 minutes of your time and you can complete the survey by **August 19th**, we will enter you into a **drawing for 1 of 3 \$50 gift cards!!** See link under the section [Chapter Updates](#) below.

Join us next week for our first meetup of the Chapter Year. S&C Electric Company is kindly opening their doors to ASSP members on **July 18th**. This is a rare look at the operations of one of Chicago's oldest and thriving manufacturers. Did you know S&C was founded in 1911, the same year ASSP (as ASSE) was founded? If you'd like to learn more interesting facts about S&C and definitely see an impressive controlled explosion lab or two, be sure to register at the link near the bottom of this page.

Thanks to all, and I look forward to all of us making this a productive and memorable Chapter Year!

stay safe,

Eric Dangoy, MPH, ASP
