# Areas of Discussion

- What is Motivation?
- Factors Leading to Change and Why People Resist Change
- Displaying Personal Accountability and Leadership
- Strategies to Succeed During Times of Uncertainty and Change

# Motivation Defined

**Directions:** Using your Chat feature write a word or phrase that you use to define motivation and then identify the traits of a highly motivated person.

# Motivation A Closer Look

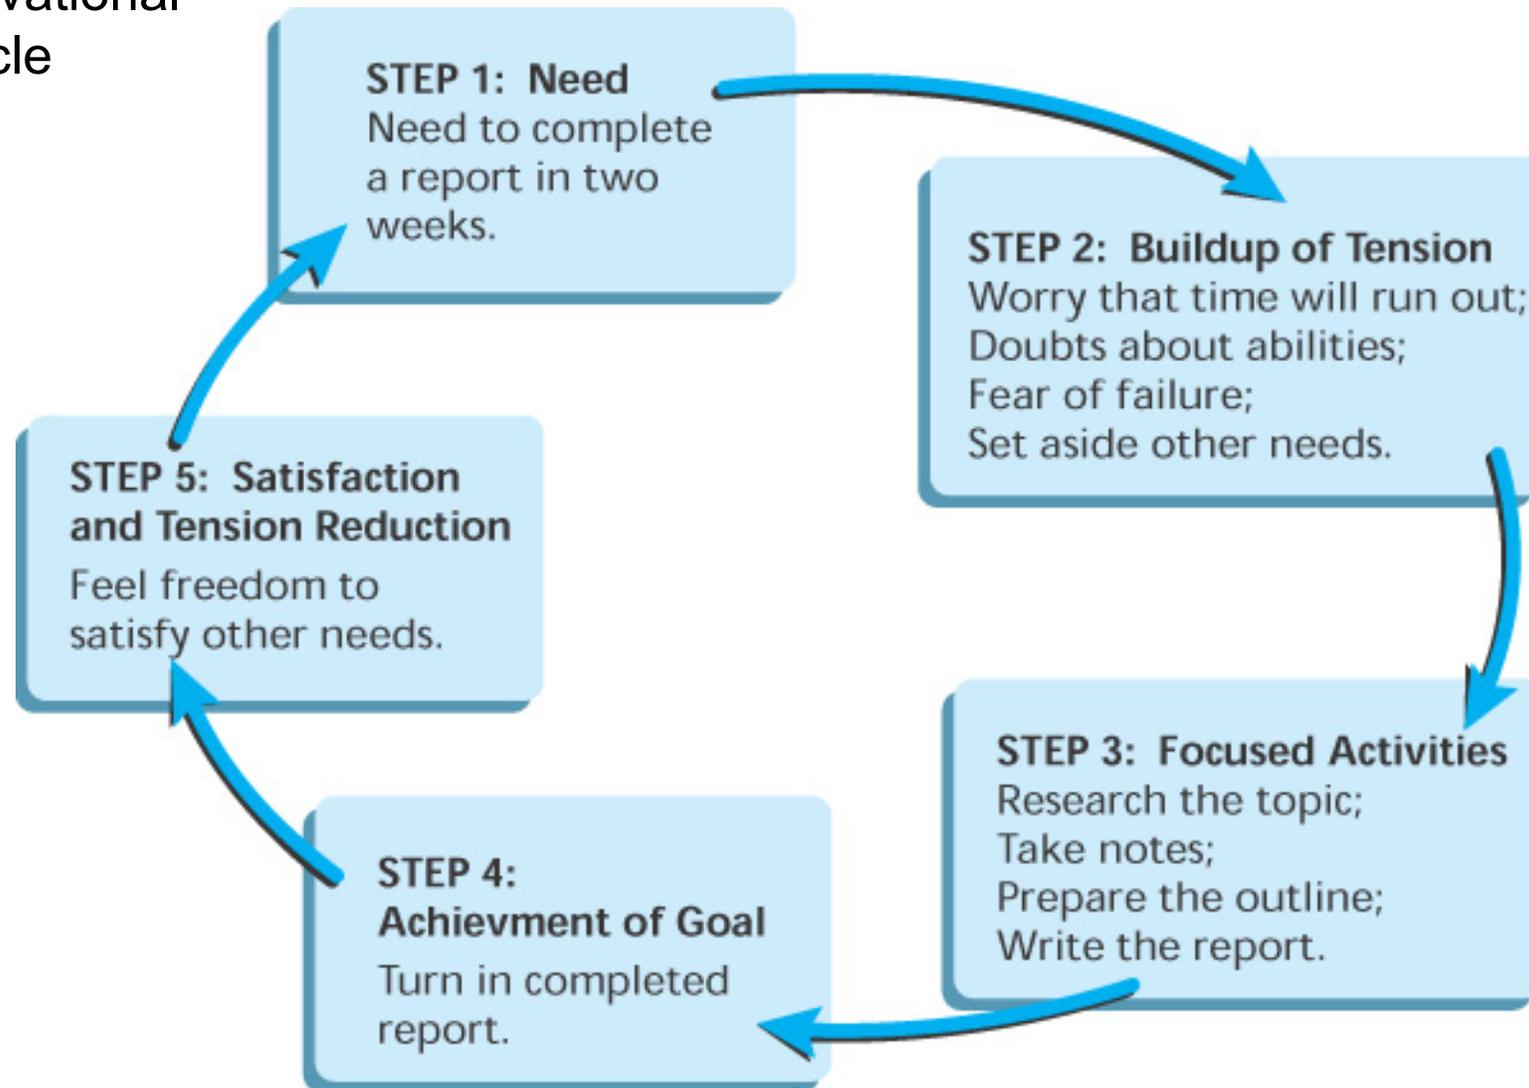

Motivation Is A Latin Word, Which Means To Move And Can Be Thought Of As The Willingness Of An Individual To Respond To Organizational Requirements.

Koontz and O'Donnell Define It As “ A General Term Applying To The Entire Class Of Drives, Desires, Needs Wishes & Similar Forces That Induce An Individual Or A Group Of People At Work.”

# 3 Things To Know

- Motivation Must Start From Within
- Motivation Is A Process – “Process Is Everything”
- We Have To Reinforce Motivational Thinking Daily

## The Motivational Cycle

# 3 Types of Motivation

- *AMOTIVATION*: Occurs When An Individual Has Very Low Levels Of Motivation Towards Any Given Task And Lacks Competence And Commitment Towards Participation
- *EXTRINSIC MOTIVATION*: Drive That Is Caused By Motives That Are External Or Environmental
- *INTRINSIC MOTIVATION*: Internal Drive That People Have To Participate Or To Perform Well In An Endeavor

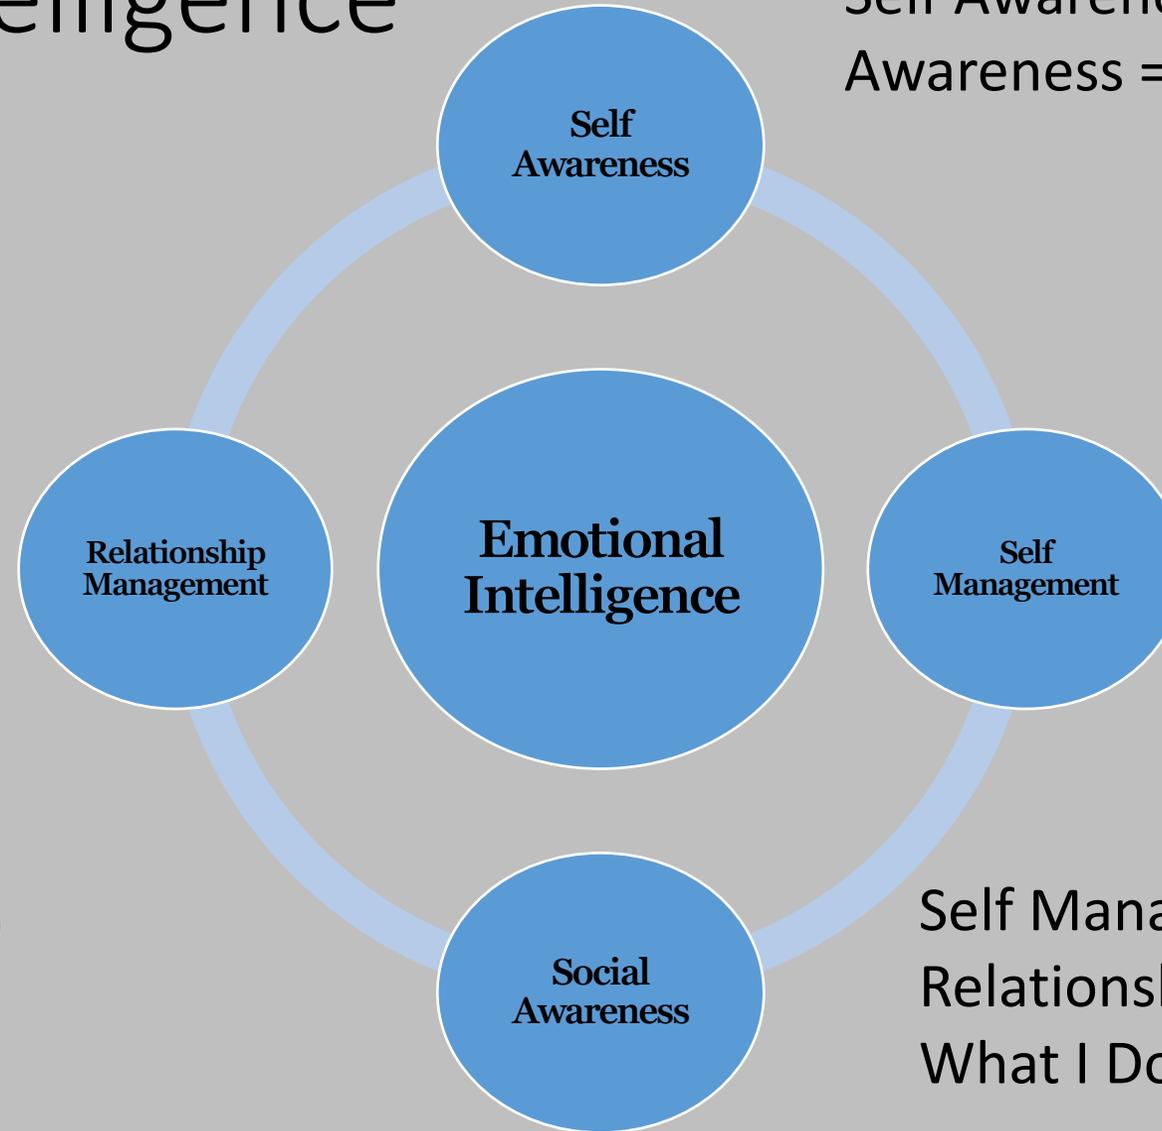

**Motivation Is A Function of Willingness and Ability**

# Emotional Intelligence

## EQ

Self Awareness + Social Awareness = What I See

“The ability to monitor one’s own and others’ feelings and emotions, to discriminate among them and to use this information to guide one’s thinking and actions.” *Salovey and Mayer (1990)*

Self Management + Relationship Management = What I Do

# Maslow's Hierarchy of Needs

- People Tend To Satisfy Their Needs In A Particular Order
- Maslow's Theory Has Three Main Assumptions
  - People Have A Number Of Needs That Require Some Measure Of Satisfaction
  - Only Unsatisfied Needs Motivate Behavior
  - Needs Are Ordered According To Influence

# Considering Maslow's Theory

- Physiological Needs: In A Good Economy, These Needs Rarely Dominate
- Safety And Security Needs: Reflect Peoples' Desire For Predictability In Life
- Love/Belonging Needs: Two Major Aspects - Frequent, Positive Interaction With A Consistent Group And A Framework Of Stable, Long-term Caring And Concern
- Esteem Needs: Self-Esteem Describes How You Feel About Yourself  
Esteem Needs Relate To A Person's Self-Respect And The Respect He Or She Receives From Others
- Self-Actualization Needs: Represent A Person's Need For Growth And Rarely Fully Attained

# Reconsidering Maslow's Theory

- Maslow's Theory Has Helped Us Understand Behavior
- The Hierarchy Should Not Be Taken Too Literally
- Research Shows Only Two Lowest Needs Are Hierarchical
- Humans Are Motivated At Any One Time By A Complex Array Of Needs

# Ways of Satisfying Individual Work Needs

## Need

- Physiological
- Safety and Security
- Love/Belonging
- Esteem
- Self-Actualization
- Self-Transcendence

# Identifying Emotions and Managing Change

When Emotions and The Possibility of Change Become Overwhelming, You May Face:

- Emotional Loss of Control
- It May Result In Screaming, Crying, Physical And/Or Verbal Abuse
- There May Be Complete Avoidance Of The Issue Due To Fear Of Repeating The Scene

# Identifying Emotions and Managing Their Effects

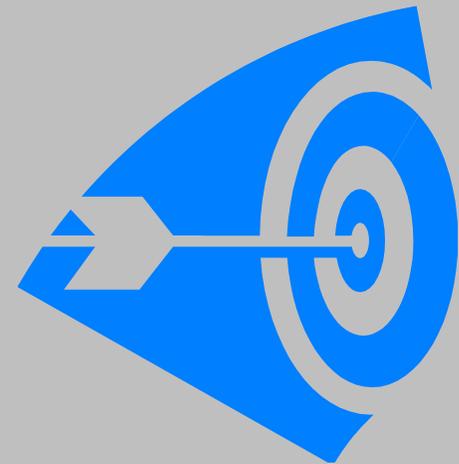

- By Separating The Interpretation From The Reality And Becoming Centered Within Ourselves; It Will Allow Us To Choose An Appropriate Action.

The background features a dark blue field with three overlapping circles of varying shades of blue. A horizontal white band is centered across the middle of the image, containing the text.

# Personal Accountability and Leadership

Brand - A Trademark Or Distinctive Name Identifying A Product Or Manufacturer – Distinct And Recognizable

PERSONAL BRANDING – The Process By Which We Market Ourselves To Others

# Your Personal Leadership Brand
